Title (include classification of title):

The Philippines: Near-Term Prospects for
Stability and US Interests

- ☐ National Intelligence Estimate
☐ Special National Intelligence Estimate
☐ Interagency Intelligence Memorandum
☐ Alert Memorandum

Precis (1 or 2 sentences; include classification of precis):

The prognosis for
the Philippines over the next two years is mixed.
The rapid deterioration and disintegration of
political stability which characterized the Marcos
era have been halted; however, the Aquino government
will likely do little in coming to grip with the
pressing longer range problems of political,
economic and social justice in the countryside.
